

## Introduction

The assignment is targeted to test the skills of the candidate in HTML.

## Objective

This assignment will help master the concepts of HTML.

## Pre-requisites

Not applicable.

## Associated Data Files

Not applicable.

## Problem Statement

- 1) Design a HTML page having body, head & title.
- 2) Add a paragraph and an image to the page.
- 3) Now, delete the image from the file system and make sure an alternate text is displayed in the place of the image.
- 4) Use the INS and DEL tags to represent inserted and deleted text respectively.
- 5) Display a text with superscript and subscript using the appropriate tags.
- 6) Display the following list using Ordered and unordered lists accordingly

## Scrambled Eggs

Eggs are one of my favorite foods. Here is a recipe for deliciously rich scrambled eggs.

### Ingredients

- 2 eggs
- 1tbs butter
- 2tbs cream

### Method

1. Melt butter in a frying pan over a medium heat
2. Gently mix the eggs and cream in a bowl
3. Once butter has melted add cream and eggs
4. Using a spatula fold the eggs from the edge of the pan to the center every 20 seconds (as if you are making an omelette)
5. When the eggs are still moist remove from the heat (it will continue to cook on the plate until served)

7) Create the following form using HTML form tags.
